

EDGE BUILDERS

LAYERS OF LUXURY

A MODERN MASTERPIECE TO CALL HOME

This project by Edge Builders is characterised by architectural flair and multiple points of interest, as well as its spacious feel on the narrow block. Designed with meticulous attention to detail, the home consists of clean lines and a seamless aesthetic, as well as an abundance of natural light. The use of various materials, colours and textures achieves a unique appeal, with concrete, glass, porcelain and timber combining to create a sophisticated look.

Providing a grand entrance, a three-metre-high glass pivot door welcomes you into the internal atrium. The central hub offers plenty of room for the homeowners to relax and entertain, with an Italian-designed kitchen featuring full-height retractable cabinetry doors to keep the area clutter-free. A custom perforated secondary staircase offers functionality and artistic style.

Taking inspiration from Singaporean designs, the home incorporates a first-floor garden bed with draping plants that are visible from the lower living area. In-situ concrete was used to create the alfresco table, and the bench seats beside the fire pit. Further demonstrating Edge Builders' creativity and space-saving concepts, the garage includes a car lift to achieve a total of four parking spaces.

For everyday convenience, all electronic devices are accessible and controllable via the homeowners' mobile phones, both locally and remotely. This includes the lights, sounds systems in four separate areas, TVs, theatre room, security, CCTV and air conditioners.

Edge Builders is a boutique company which completes projects for budgets of all sizes. With a core focus on customer service, the company ensure each client deals with the same team member throughout their building journey, from the design stage and product and material selection, to the construction and handover, ensuring all needs are met and no details are missed.

Striving for continual innovation in the latest technologies and materials, Edge Builders prides itself on quality craftsmanship and efficient construction, while its partnerships with experienced tradespeople and designers help achieve high-quality and professional outcomes.

The team believes no two people are the same, and therefore their homes should not be either, which is why Edge Builders will work closely with you to create a custom home that complements your individual lifestyle.
